

Emmons Pre-K Summer Program!

Open to kids entering kindergarten in fall of 2010 and fall of 2011!

This program is for kindergarten-bound children to get a five-week head start on the new school year.

The focus of the program will be to prepare students for their kindergarten school year. Students will work through all 26 letters of the alphabet learning to identify each letter, write each letter, and identify the sound each letter makes. Art projects and games emphasizing each letter will give children practice and experience while developing essential reading and language skills.

This program will help you and your child to:

- Be better prepared for the social and emotional demands of a busy classroom environment.
- Be familiar with the daily routines of the classroom and school.
- Establish a bond with the teacher, who will be your child's kindergarten teacher in the fall.

Highlights

- Class is capped at 15 students.
- There will be an aide in the classroom along with a certified kindergarten teacher.
